

New Early Years Facilities Manager at Emerson

Emerson is seeking someone to set up a new childcare facility that initially would comprise child care for very young children (up to 3 years old) and a toddler group. The aim is that the facility would be able to provide all-day care based on the Emerson Campus. Emerson hopes that this will eventually lead onto the possibility of having crèche facilities for the courses and possibly a kindergarten.

Applicants should have several years experience in the Steiner Waldorf approach and a level five qualification. Experience and a wish to work with very young children would be expected. Further, a knowledge of the Pikler method for very young children, and /or an openness to work with this method, would also be valuable.

Emerson will soon be starting a new Early Years training programme and it would also be expected that the new manager of the early years care facility would work closely with the leaders of the training, so that the former would be an expression of what was being taught by the latter.

Applicants should contact Robert Lord on 0781 777 8351 or email: robert@colouradvice.com

Please send a CV with your application and a short letter explaining why you are attracted to the position. If you would like further information about Emerson College, this is available on the website: www.emerson.org.uk
