Dear colleagues,

Waldorf School of Limassol / Cyprus is growing fast and looking for experienced grades class teachers and kindergarten teachers.

The school is located on the beautiful Cyprus island in the Mediterranean with millennial history, 330 days of sunshine a year, beautiful mountains and beaches and very friendly people. Cyprus is the member state of the European Union. Limassol is the modern cosmopolitan city by the sea hosting over 60 nationalities and providing plenty of recreation opportunities and developed infrastructure - great place for a Waldorf school.

Our school was founded by the group of parents and developed by experienced teachers from the USA, UK, Canada, South Africa, Ukraine and Russia as English-speaking school. Our school is K-6 and should add a new grade every year to grow into the K-12 school. We invite experienced and enthusiastic teachers to join our team and build a great school together.

We are starting to build our new school campus on beautiful land of 50,000 m2 that should include kindergarten, elementary and high schools, international boarding school and accommodation for teachers. Great momentum to join the thriving team.

We expect the applicants to be trained and experienced grades class teachers or kindergarten teachers.

Please send queries to info@waldorfcyprus.org and see the links to our school:
